SHARING EXPERTISE

Section A	Admixture Products
Needleless Dispensing Pins	A1-A3
Multidose Vial Adapter	A4
Vented Needles and Dispensing Connectors	A4
Syringe Caps	A4-A5
Additive Cap	A5
Chemo Dispensing Pins	A6
ONGUARD™ Contained Medication System with Tevadaptor® Components	A7
Admixture Accessories	A8-A9
MULTI-AD® Fluid Dispensing System	A10
Filtered Medication Transfer Devices	A11
Fluid Transfer Sets	A12-A13
Pre-Filled Flush Syringes	A14
PINNACLE® TPN Management System and Accessories	A15
Mixing Containers	A16-17
QC TESTER™ Whole Solution Contamination Tester	A18

Section B	Needles and Syringes
Hypodermic Needles	B1
Tuberculin Syringes	B2
Insulin Syringes	B2
Syringes/Syringes with Needles 1 mL to 5 mL	B3
Syringes/Syringes with Needles 10 mL to 100 mL	B4
Injekt™ two-piece Syringes (Value Line)	B5

Section C	IV Fluids & Irrigation, Wound Care, CAPS®, Electrolyte Charts
DUPLEX® Drug Delivery System	C1
Pre-mixed Pharmaceuticals	C2-C3
Empty Containers, Accessories	C4
IV Nutrition Products	C5-C6
General Purpose IV Solutions	C7-C10
Special Purpose IV Solutions	C10
Container Accessories	C10
Irrigation/Urology Solutions	C11
Irrigation/Urology Sets and Accessories	C12-C13
Prontosan® Wound Irrigation Solution and Wound Gel	C14
CAPS Pharmacy Admixture Services	C15
Electrolytic Charts	C16-C18

Section D	Infusion Systems
Outlook® ES Safety Infusion System	D1-D2
DoseTrac® Infusion software	D2
Outlook Pump Sets	D3-D9
Perfusor® Space and Infusomat® Space Pumps	D10
Space Pump Accessories	D10
Infusomat Space Pump Sets	D11-D14
Vista® basic Infusion Pump	D15
Vista basic Pump Sets	D15-D17
BodyGuard® Infusion Pumps	D18-D19
BodyGuard Infusion Pump Accessories	D20-D22
BodyComm® Pump Communication System	D22
BodyGuard Lock Boxes	D22
BodyGuard Administration Sets	D23-D26
Syringe Pump Sets	D27
IV Poles and Stands	D28

Section E	Anesthesia IV, IV Administration, and Needleless Products and Sets
Anesthesia IV Products and Sets	
Stopcocks and Manifolds	E1-E2
ULTRAPORT™ Luer-Activated Stopcocks	E3
Anesthesia Manifolds	E4

Needleless Dispensing Pins			
<i>All components on this page do not contain DEHP or natural rubber latex.</i>			
	MP1000	415019	100
<p>MICRO PIN® non-vented, single use dispensing pin for withdrawal or injection of medication from rubber-stoppered vials. Luer lock connector.</p>			
	DP3500	413500	50
<p>Non-vented Dispensing Pin with SAFSITE® Valve. Automatic Two-Way Valve for aspiration or injection of medication from inverted bags or semi-rigid plastic containers. Luer slip connector.</p>			
	DP3500L	413501	50
<p>Non-vented Dispensing Pin with SAFSITE Valve – same features as 413500 except with a luer lock connector.</p>			
	DPO3500L	412022	50
<p>Non-vented Dispensing Pin with One-Way Valve – for aspiration of medication from inverted bags or semi-rigid plastic containers. Luer lock connector.</p>			
	DPO4000L	412023	50
<p>Non-vented dispensing pin with One-Way Valve and ULTRASITE® valve. For aspiration of medication from inverted bags or semi-rigid plastic containers.</p>			
	US10	412027	50
<p>Non-vented dispensing pin with ULTRASITE valve. Two-way valve for aspiration or injection.</p>			
	DP4000	413503	100
<p>Non-vented MINI-SPIKE® Dispensing Pin – for withdrawal or injection of medication from multi-dose rubber-stoppered vials. Luer lock connector.</p>			
	DP1000	412012	50
<p>MINI-SPIKE IV Additive Dispensing Pin – for preparing and dispensing diluent or additive from multi-dose rubber-stoppered vials. Utilizes a bacterial retentive air-venting filter. Proximal luer lock connector.</p>			

Description

Product Code REF Number Units Per cs

Needleless Dispensing Pins

All components on this page do not contain DEHP or natural rubber latex.

Standard Spike Dispensing Pin – for preparing and dispensing diluent or additive from multi-dose rubber-stoppered vials. Utilizes a bacterial retentive air-venting filter. Luer slip connector.

DP2000 412013 50

Standard Spike Dispensing Pin – with "D" hole design. For preparing and dispensing diluent or additive from multi-dose rubber-stoppered vials. Luer slip connector. Utilizes a bacterial retentive air-venting filter.

DP2001 412002 50

MINI-SPIKE® Dispensing Pin with Security Clip. For attachment to standard 20 mm rubber-stoppered vials. Used for preparing and dispensing diluent or additive from multi-dose vials. Utilizes a bacterial retentive air venting filter. Proximal luer lock connector.

DP1000SC 412004 50

MINI-SPIKE Dispensing Pin with ULTRASITE® valve and security clip, for attachment to standard 20 mm rubber-stoppered vials, Two-Way Valve for aspiration and injection. Utilizes a bacterial retentive air-venting filter.

DP1800SC 413504 50

MINI-SPIKE Dispensing Pin with ULTRASITE valve for rubber-stoppered vials, Two-Way Valve for aspiration and injection. Utilizes a bacterial retentive air-venting filter.

US50 412026 50

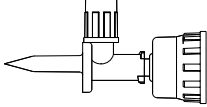

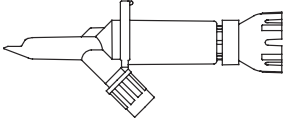

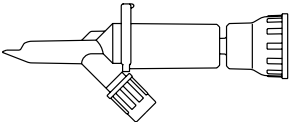

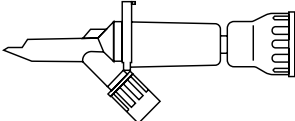

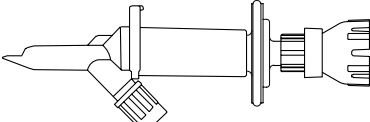

MINI-SPIKE Dispensing Pin with SAFSITE® Valve – automatic Two-Way Valve for aspiration or injection of medication from inverted multi-dose vials. Utilizes a bacterial retentive air-venting filter. Luer slip connector.

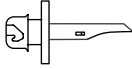

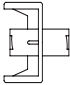

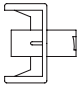

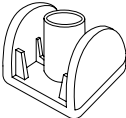

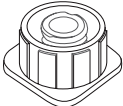

DP1500 412000 50

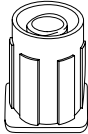

Non-Vented Vial Access Spike with ULTRASITE Valve and security clips Two-Way Valve for aspiration and injection of diluent or additive from 17mm and 20mm rubber-stoppered vials.

US1720SC 412720 50

Description	Product Code	REF Number	Units Per cs
Needleless Dispensing Pins			
	DPO1500L	412020	50
<p>MINI-SPIKE® Dispensing Pin with One-Way Valve – for aspiration of medication from inverted multi-dose vials. Luer lock connector. Utilizes a bacterial retentive air-venting filter. Components do not contain DEHP or natural rubber latex.</p>			
	DP2500	412005	50
<p>Standard Spike Dispensing Pin with SAFSITE® Valve – automatic Two-Way Valve for aspiration or injection of medication from inverted multi-dose vials. Luer slip connector. Utilizes a bacterial retentive air-venting filter. Components do not contain DEHP or natural rubber latex.</p>			
	DP2500L	412006	50
<p>Standard Spike Dispensing Pin with SAFSITE Valve – same features as 412005 except with a luer lock connector. Components do not contain DEHP or natural rubber latex.</p>			
	DPO2500L	412021	50
<p>Standard Spike Dispensing Pin with One-Way Valve – for aspiration of medication from inverted multi-dose vials. Luer lock connector. Utilizes a bacterial retentive air-venting filter. Components do not contain DEHP or natural rubber latex.</p>			
	DP2505	412008	50
<p>Standard Spike Dispensing Pin with SAFSITE Valve and Filter – 5µ disk filter with automatic Two-Way Valve for filtered syringe aspiration or injection from suspended multi-dose vials. Luer slip connector. Utilizes a bacterial retentive air-venting filter. Components do not contain DEHP or natural rubber latex.</p>			
	DPL2500	412007	50
<p>Standard Spike Dispensing Pin with 24 in. Extension Line and SAFSITE Valve – for aspiration of medication from inverted multi-dose vials. Luer slip connector. Utilizes a bacterial retentive air-venting filter. Components do not contain natural rubber latex.</p>			

Description	Product Code	REF Number	Units Per cs
Multidose Vial Adapter			
<i>All components on this page do not contain DEHP or natural rubber latex.</i>			
	NF9280	NF9280	100
SAFELINE® multidose vial adapter – split septum for multiple access with blunt cannula.			
Vented Needles and Dispensing Connectors			
	VN1000	415070	100
Vented Needle – vented piercing pin for drug reconstitution. Luer lock connector.			
	VN1000L	415072	100
Lateral Flow Vented Needle – vented piercing pin, specifically designed to minimize drug foaming during the reconstitution process. Luer lock connector.			
	FDC1000	415080	100
Fluid Dispensing Connector – proximal and distal female luer lock connector. Used for pre-filling unit dose syringes from a large master syringe (color – green).			
	FDC2000	415081	100
Fluid Dispensing Connector – proximal female luer lock and distal female luer slip connector. Used for transferring medication from syringe to syringe or between a syringe and a master container with a male luer connector (color – blue).			
Syringe Caps			
	SC1000	418010	500
MULTI-AD® Syringe Cap – used for capping luer tip syringes. Unique 10 per blister package protects sterility of unopened caps and aids in capping. 50 packs per case (color – green).			
	SC2000	418012	500
MULTI-AD Luer Lock Syringe Cap – used for capping luer slip or luer lock syringes. Unique 10 per blister package protects sterility of unopened caps and aids in capping. 50 packs per case (color – red).			
MULTI-AD Luer Lock Syringe Cap – same as 418012 (color – blue).	SC3000	418013	500

Syringe Caps			
<i>All components on this page do not contain DEHP or natural rubber latex.</i>			
	SCF130	418200	600
Flexible Syringe Cap – used for capping luer tip syringes. Unique 30 per blister package protects sterility of unopened caps and aids in capping. 20 packs per case (color – white).			
Flexible Syringe Cap – same as 418200 (color – blue).	SCF230	418202	600
Flexible Syringe Cap – same as 418200 (color – yellow).	SCF330	418203	600
	TEC1000	418004	500
Tamper-Evident Syringe Cap – used for capping luer lock syringes. This syringe cap is tamper-evident which provides improved quality control of prepared syringes. Unique 10 per blister package protects sterility of unopened caps and aids in capping. 50 packs per case (color – red).			
	N7820	N7820	500
ADD-PRO™ Syringe Caps – used for capping luer tip syringes. Unique 20 per blister package protects sterility of unopened caps and aids in capping. 25 packs per case (color – beige).			

Additive Cap

BIG TAB® Additive Cap – extra-large, ribbed finger grip with tamper-evident feature fits 28 mm bottle tops. Packed individually, sterile.(color - green). AC28 315000 100

Chemo Dispensing Pins

All components on this page do not contain DEHP or natural rubber latex.

Chemo Dispensing Pin™ – with Distal MINI-SPIKE® connector, and built-in 0.2 micron hydrophobic air-venting filter. Designed to eliminate aerosoling of chemotherapeutic medications during the reconstitution and dispensing process. Proximal luer lock connector.

CDP2000 412014 50

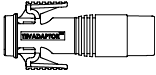

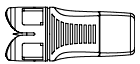

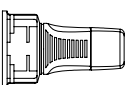

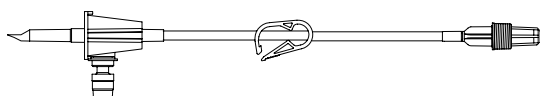

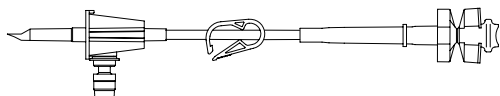

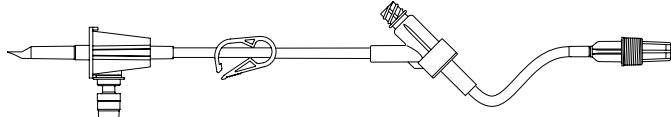

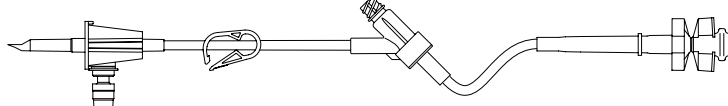

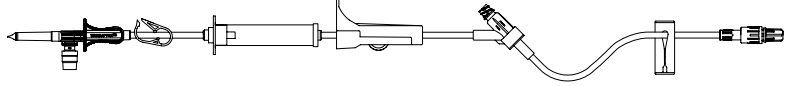

Chemo Dispensing Pin S.C. – with Security Clip for attachment to standard 20 mm rubber-stoppered vials. Built-in 0.2 micron hydrophobic air venting filter designed to eliminate aerosoling of chemotherapeutic medications during the reconstitution and dispensing process. Proximal luer lock connector.

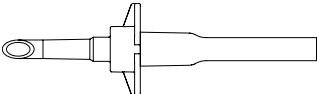

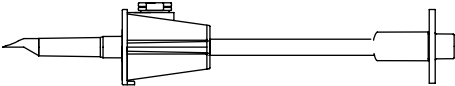

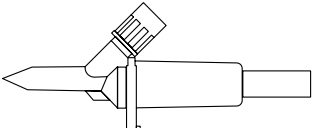

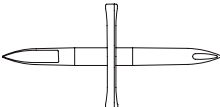

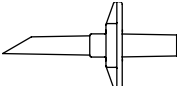

CDP2000SC 412003 50

Chemo Dispensing Pin with MINI-SPIKE Plus connector. Designed to eliminate aerosoling of chemotherapeutic medications during the reconstitution and dispensing process. With 0.2 micron air filter, 5 micron fluid filter and integrated snap-lock cap protecting luer lock connector.

CDP3005 412011 100

Closed System Drug-transfer Devices			
ONGUARD™ Contained Medication System with Tevadaptor® Components			
 <p>Tevadaptor Syringe Adaptor - for use with luer lock syringes. Enables closed fluid transfers using syringe and various Tevadaptor components through dedicated device connections. Components do not contain DEHP or natural rubber latex. 50/box, 6 boxes/case</p>	412118	412118	300
 <p>Tevadaptor Vial Adaptor - for closed reconstitution and withdrawal of medications with most 20 mm and 13mm vials (with vial converter ring provided). Components do not contain DEHP or natural rubber latex. 50/box, 4 boxes/case</p>	412111	412111	200
 <p>Tevadaptor Vial Adaptor for 28 mm vials Components do not contain DEHP or natural rubber latex. 20/box, 4 boxes/case</p>	412119	412119	80
 <p>Tevadaptor Connecting Set - secondary tubing set for closed drug preparation and administration of IV medications. Proximal non-vented bag spike, on/off clamp, and distal male luer lock connector. Components do not contain DEHP or natural rubber latex. Length: 19 in. (49 cm)</p>	412112	412112	100
 <p>Tevadaptor Spike Port Adaptor - adapts a dedicated IV pump tubing set or gravity tubing set Proximal non-vented bag spike, on/off clamp and distal spike adaptor access. Components do not contain DEHP or natural rubber latex. Length: 8 in. (20 cm)</p>	412113	412113	100
 <p>Tevadaptor Luer Lock Adaptor - converts a standard luer activated valve for access with the Tevadaptor Syringe Adaptor. Components do not contain DEHP or natural rubber latex. 100/box, 4 boxes/case</p>	412114	412114	400
 <p>Tevadaptor Connecting Set with ULTRASITE® Needleless Valve - secondary tubing set. For closed drug preparation and administration of IV medication. Proximal non-vented bag spike, on/off clamp, ULTRASITE Valve and distal luer lock connector. Components do not contain natural rubber latex. Length 19 in. (49 cm)</p>	412115	412115	100
 <p>Tevadaptor Spike Port Adaptor Set with ULTRASITE Needleless Valve - adapts a dedicated IV pump tubing set, or gravity tubing sets. Proximal non-vented spike, on/off clamp, ULTRASITE Valve and distal spike adaptor access. Components do not contain natural rubber latex.. Length: 13 in. (33 cm)</p>	412116	412116	100
 <p>Tevadaptor Connecting Set with Drip Chamber and ULTRASITE Needleless Valve - for closed drug preparation and administration of IV medication. Proximal non-vented spike, on/off clamp, drip chamber, roller clamp, ULTRASITE Valve, slide clamp, Male luer lock connector. Components do not contain natural rubber latex. Priming volume: 12 mL, Length: 43 in. (108 cm),</p>	412120	412120	70

Description	Product Code	REF Number	Units Per cs
Admixture Accessories			
	N2050	N2050	24
<p>Non-Vented Spike Adapter – non-vented adapter permits connection of a vented IV spike to a semi-rigid plastic IV container. Components do not contain natural rubber latex.</p>			
	N2061	N2061	50
<p>Spike Adapter – Allows non-vented sets to be used with non-vented rigid IV solution containers. Components do not contain DEHP or natural rubber latex. Length: 4.5 in. (11 cm)</p>			
	SA2000	418105	50
<p>Vented Spike Adapter – to permit connection of non-vented IV spike to IV bottle requiring a vent. Components do not contain natural rubber latex.</p>			
	BC0017	415060	100
<p>Backcheck Valve with 17 Ga. x 1 in. Needle – for the injection of multiple additives to an IV bag injection port. Components do not contain DEHP or natural rubber latex. Priming Volume: 0.26 mL.</p>			
	IN2019	418019	100
<p>Intermittent Injection Port with 19 Ga. x 1 in. Needle – for the addition of multiple additives to the additive port of an IV bag. Components do not contain DEHP or natural rubber latex. Priming Volume: 0.24 mL.</p>			
	TR1000	415125	100
<p>Transofix™ Transfer Spike – double spike for rapid transfer of medication or diluent between rubber stoppered containers. Components do not contain DEHP or natural rubber latex.</p>			
	SA1000S	418102	50
<p>Blood Spike Adapter. Components do not contain DEHP or natural rubber latex.</p>			

ADMIXTURE PRODUCTS

MULTI-AD® Fluid Dispensing System

All components on this page do not contain DEHP or natural rubber latex.

MULTI-AD Fluid Dispensing System – contoured grip on 10 cc luer lock syringe with adjustable automatic spring return, dual check valve, and universal spike on 41 in. (104.1 cm) transfer set.

MAC1001 513506 10

MULTI-AD Fluid Dispensing System – 10 cc luer lock syringe with adjustable automatic spring return, 41 inch (104.1 cm) vented transfer set, dual check valve, 40 in. extension set with distal luer lock connector. Use with MULTI-AD pump.

MA1040 513540 10

MULTI-AD Fluid Dispensing System – 10 cc luer lock syringe with adjustable automatic spring return, dual check valve, 30 in. (76.2 cm) transfer set with weighted sinker and tubing clip. For use with MULTI-AD pump or manual activation for use when dispensing fluids from an open container.

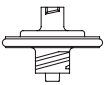

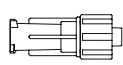

MA1000L 513501 10

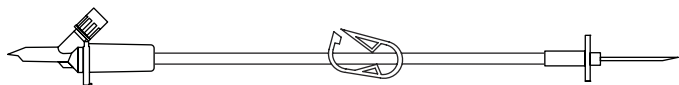

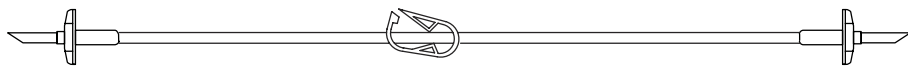

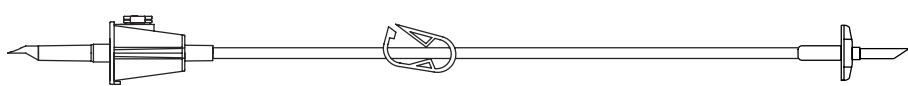

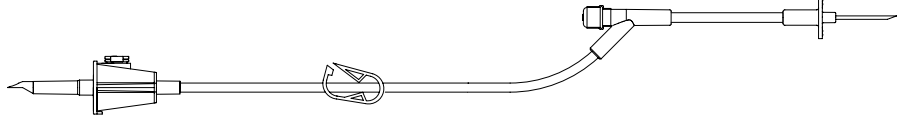

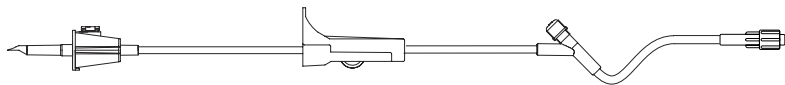

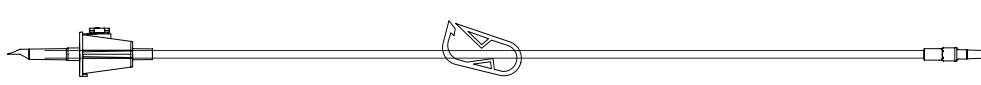

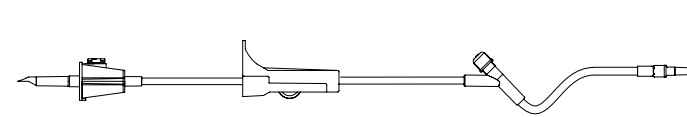

MULTI-AD Transfer Set – vented transfer set with automatic two-way valve assembly, universal spike, on/off clamp, dual check valve. Accepts standard syringe for dispensing IV additives. Length: 43 in. (109.2 cm)

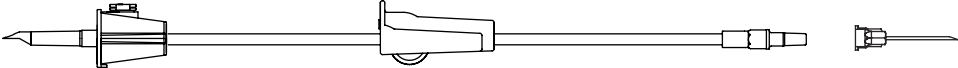

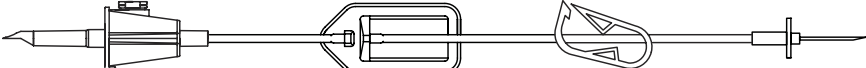

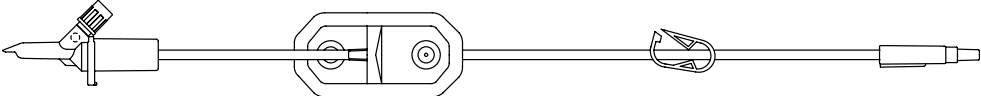

MAT4100 513548 20

ADMIXTURE PRODUCTS

Description	Product Code	REF Number	Units Per cs
Filtered Medication Transfer Devices			
 FILTER STRAW® - 5 micron filter with 4 in. flexible straw for fluid aspiration from glass ampules. Components do not contain natural rubber latex.	FS5000	415020	100
 FILTER STRAW - 5 micron filter with 1¾ in. flexible straw for fluid aspiration from glass ampules. Components do not contain natural rubber latex.	FS5005	415021	100
 Filter-Needle - 5 micron filter in female luer lock connector with 20 Ga. x 1 ½ in. thinwall needle for withdrawal or injection of medication from rubber-stoppered vial. Components do not contain DEHP or natural rubber latex.	FN5120	415025	100
 Filter-Needle - 5 micron filter in female luer lock connector with 19 Ga. x 1 in. thinwall needle for withdrawal or injection of medication from rubber-stoppered vial. Components do not contain DEHP or natural rubber latex.	FN5019	415040	100
 Filter Needle II - removable 5 micron filter with attached 19 Ga. x 1 in. thinwall needle. Used for withdrawal or injection of medication from rubber-stoppered vial. Components do not contain DEHP or natural rubber latex.	FN5219	415042	100
 0.2 micron SUPOR® Aspiration/Injection Disc Filter – with proximal and distal luer lock connections designed for bacteria retentive filtration of medication. Components do not contain DEHP or natural rubber latex. Fluid retention is 0.3 mL (color: green)	PF2000	415002	50
1.2 micron SUPOR Aspiration/Injection Disc Filter with low drug binding membrane – proximal and distal luer lock connection designed for fungal and particulate filtration of medication. Components do not contain DEHP or natural rubber latex. Fluid retention is 0.3 mL. (color: clear)	PF1200	414995	50
5 micron SUPOR Aspiration/Injection Disc Filter with low drug binding membrane – proximal and distal luer lock connection designed for fungal and particulate filtration of medication. Components do not contain DEHP or natural rubber latex. Fluid retention is 0.3 mL. (color: purple)	PF5000	415008	50
 Filter Needle - 5 micron filter in female luer lock connector with 19 Ga. x 1 ½ in. thinwall needle for withdrawal or injection of medication from rubber-stoppered vial. Components do not contain DEHP or natural rubber latex.	FN5119	415030	100
 High Flow Filter Needle 19 Ga. x 7/8 in. needle with 5 micron filter, recommended for use with viscous medications. Components do not contain DEHP or natural rubber latex.	FN5019HF	415041	100
 Filter Needle - 5 micron filter in female luer lock connector with 20 Ga. x 1 in. thinwall needle for withdrawal or injection of medication from rubber-stoppered vial. Components do not contain DEHP or natural rubber latex.	FN5020	415035	100
 Filter Hub - 5 micron filter in male/female luer lock hub for use with standard luer connections. Components do not contain DEHP or natural rubber latex.	FH5000	418021	100

Description	Product Code	REF Number	Units Per cs
Fluid Transfer Sets without Filters			
 <p>Fluid Transfer Set – vented spike with gripping flange, large bore tubing with on/off clamp, and distal 17 Ga. x 1 in. needle with gripping flange. Used for direct transfer of fluids between large volume parenterals. Components do not contain natural rubber latex. Length: 24 in. (60.7 cm)</p>	FT1000	356050	50
 <p>Fluid Transfer Set – proximal and distal non-vented spikes, wide bore tubing with on/off clamp. Components do not contain DEHP or natural rubber latex. Length: 27 in. (68.6 cm)</p>	FT1002	356049	50
 <p>Fluid Transfer Set – universal spike, wide bore tubing with on/off clamp, distal non-vented spike. Components do not contain DEHP or natural rubber latex. Length: 27 in. (68.6 cm)</p>	FT1003	356043	50
 <p>Fluid Transfer Set – universal spike, large bore tubing with on/off clamp, Y-site for multiple injections, and distal 17 Ga. x 1 in. needle with gripping flange. Components do not contain DEHP or natural rubber latex. Length: 24 in. (60.7 cm)</p>	FT1100	356052	50
 <p>Fluid Transfer Set – universal proximal spike, roller clamp, injection site, and distal male luer lock connector. Components do not contain DEHP or natural rubber latex. Length: 30 in. (76.2 cm)</p>	FT1100L	356053	50
 <p>Fluid Transfer Set – universal proximal spike, wide bore tubing, on/off clamp, distal luer slip connector. Components do not contain DEHP or natural rubber latex. Length: 33 in. (79.1 cm)</p>	FT1000S	356048	50
 <p>Fluid Transfer Set – universal proximal spike, roller clamp, injection site, and distal luer slip connector. Components do not contain DEHP or natural rubber latex. Length: 22 in. (55.9 cm)</p>	FT1100S	356054	50

Description	Product Code	REF Number	Units Per cs
PINNACLE® TPN Management System			

The PINNACLE TPN Management System streamlines your TPN process for improved safety and efficiency. The PINNACLE TPN Management System uses barcode verification and barcoded patient prescription to help reduce medication errors. Also, the Windows® browser-based TPN calculating software includes Trissel's™ Ca/P Check software and provides flexibility for single-, multiple-, and network-user access and internet capability.

NEEDLES AND SYRINGES

HYPODERMIC NEEDLES

Unique, highly automated grinding and polishing process and low-friction lubrication is designed to achieve unequalled sharpness and ease of penetration. Transparent hub design provides high visibility to detect flashback.

Designed for Patient Comfort in a Broad Array of Sizes

- Smooth surface with light silicone coating designed to minimize discomfort
- Color-coded hubs for easy identification
- Wide range of diameters and lengths
- Lengths from 1/2 in. to 4 3/4 in.
- Gauges from 18G to 27G
- Ultra-sharp, tri-beveled stainless steel designed to result in minimal pain

Material:

Stainless steel with plastic (polypropylene) hubs

TUBERCULIN SYRINGES

Designed with smooth, accurate, consistent plunger travel force:

- 25 gauge and 26 gauge with detachable needles
- 30 gauge permanently attached needle version
- Minimal silicone residue
- Positive plunger stop on all sizes
- Available option - without needle

Material:

- Barrel and plunger rod: Polypropylene
- Plunger tip: Polyisoprene
- Components do not contain DEHP, PVC, or rubber tree latex

Description	REF Number	Units Per cs
1 mL TB LS	9161406V-02	1800

1 mL TB 30G x 1/2 in. PN	9161502SUS	2400

INSULIN SYRINGES

Advanced, premium comfort needle technology design:

- Positive plunger stop on all sizes
- 0.5 and 1 mL sizes
- 27 gauge and 30 gauge for maximum patient comfort
- Permanently attached, detachable, and without needle configurations
- Smooth, consistent plunger gliding force
- Highly transparent for better visualization

Material:

- Barrel and plunger rod: Polypropylene
- Plunger tip: Polyisoprene
- Components do not contain DEHP, PVC, or rubber tree latex

NEEDLES AND SYRINGES

INJEKT™ SYRINGES

Injekt syringes do not contain rubber tree latex, silicone oil, styrene, or DEHP. Manufactured only from laboratory polypropylene and polyethylene, these unique plastic syringes have a positive safety stop to help prevent accidental spills.

Accurate and economical Injekt syringes:

- Ideal for simple injections, vaccinations and more
- Compatible with all needles
- Green plunger for easy recognition of filling volumes
- Smooth, steady operation
- Also available with Sterican® needles for unmatched sharpness and patient comfort

Ready to Use IV Drug Delivery

DUPLEX® DRUG DELIVERY SYSTEM

DUPLEX, a dual-chamber IV container, is now available in five cephalosporins that cover three generations of treatment. DUPLEX, recipient of the 2002 Medical Design Excellence Award and 2003 DuPont Packaging Award, is ready to use and supports The Joint Commission compliance.

Conveniently activated at point of care, there is no need for freezing or special vials. Pre-filled drug and diluent chambers eliminate need for drug admixing and potential for associated medication errors. Not manufactured with PVC, DEHP, or natural rubber latex.

Irrigation/Urology Sets for PIC™ Plastic Irrigation Containers

 Cysto Post-Operative Irrigation Set, UniSpike™ Connector, 0.188 in. ID tubing, on/off clamp, 4½ in. distal flexible connector. Latex-free. Length: 80 in. (203.2 cm)	V4500	V4500	20
 Uni-Spike Connector, 0.188 in. ID tubing, drip chamber, roller clamp, distal Foley catheter connector. Latex-free. Length: 71 in. (180 cm)	V4508	V4508	20
 UniSpike Connector, 0.188 in. ID tubing, drip chamber, roller clamp, distal flexible connector with a 4½ in. distal flexible connector. Latex-free. Length: 79 in. (200.7 cm)	313005	313005	10
 SuperSet™ Two-Bottle Irrigation Set, Two UniSpike Connectors, 0.281 in. ID large bore tubing, two on/off clamps, drip chamber, roller clamp, 4½ in. distal flexible connector. Latex-free. Length: 94 in. (238.8 cm)	313000	313000	10
 SuperSet Four-Bottle Irrigation Set, Four UniSpike Connectors, manifold, 0.281 in. ID large bore tubing, four on/off clamps, drip chamber, roller clamp, 4½ in. distal flexible connector. Latex-free. Length: 97 in. (246.4 cm)	313001	313001	10

Irrigation/Urology Sets Compatible with Flexible Irrigation Bags

 Continuous Overhead Irrigation Set, non-vented spike, 0.188 in. ID tubing, drip chamber, roller clamp, 4½ in. distal flexible connector. Latex-free. Length: 82 in. (208.3 cm)	V4608-20	V4608-20	20
 T.U.R./Cysto Set non-vented spike, 0.281" ID large bore tubing, on/off clamps clamp, 4½ in. distal flexible connector. Latex-free. Length: 80 in. (203.20cm)	313002	313002	10
 Two-Bag Irrigation Set, two non-vented spikes, 0.281 in. ID large bore tubing, two on/off clamps, drip chamber, roller clamp, 4½ in. distal flexible connector. Latex-free. Length: 94 in. (238.8 cm)	313003	313003	10
 Four-Bag Irrigation Set, four non-vented spikes, four on/off clamps, manifold, roller clamp, 0.281 in. ID large bore tubing, 4½ in. distal flexible connector. Latex-free. Length: 96 in. (243.8 cm)	313004	313004	10

Prontosan® Wound Irrigation Solution and Wound Gel

Prontosan from B. Braun because . . . Only a Clean Wound Can Heal

Wound bed preparation remains a fundamental, yet critical, aspect of wound management . . .

- A unique surface active wound cleanser setting a NEW STANDARD to help reduce necrotic burden, control exudate and remove foreign materials that impede healing
- **Prontosan Wound Irrigation Solution** and **Prontosan Wound Gel** may be used together or independently
- Two effective ingredients combined to maximize cleansing power: PHMB and Betaine
 - **PHMB (Polyhexanide)** functions as a preservative (also found in contact lens solution) that inhibits the growth of microorganisms within the product
 - **Betaine (Surfactant)** is a surface-active cleanser that provides immediate debridement
- Applied directly from the 350 mL bottle providing selective mechanical debridement at 7 PSI
- Easy to use – no further preparation required
- Apply at every dressing change, or per your facility's protocol
- Economical 28-day shelf life after opening

C A P S®
delivering solutions™
 A B. Braun Company

CAPS® Central Admixture Pharmacy Services, Inc.

As the nation's number one provider of custom compounded PN, CAPS is the largest network of outsourcing admixture pharmacies. CAPS delivers PN, Cardioplegia and other sterile preparations to a dynamic and challenging pharmacy environment. State-licensed and FDA-registered, CAPS pharmacies make over 300,000 local deliveries annually. With state-of-the-art compounding technology, electronic ordering and the most comprehensive quality program in the industry, CAPS pharmacies operate 365 days a year dispensing labeled, patient-specific and anticipatory IV prescriptions to health system pharmacy customers.

Services.

Nutrition Services

- Adult TPN
- Neonatal TPN
- IV Glutamine
- ProcalAmine® (3% Amino Acid and 3% Glycerin Injection with Electrolytes)

Cardioplegia

- Amino Acid Enriched Cardioplegia
- CPD/Tromethamine Cardioplegia Solution
- Microplegia with Adenocaine® Patented Technology

CRRT

- Sodium Bicarbonate
- Sodium Citrate

Controlled Substances

- IV
- Epidurals

Oxytocin and other drug delivery solutions

Prefilled Anesthesia Syringes

Quality.

- FDA-registered
- Licensed in all 50 states
- State-of-the-art clean room environments
- Beyond use dating protocols
- Quality assurance documentation/reporting
- Personnel training and education
- Environmental monitoring

Efficiency.

- **Saves Time—**
 Lets you focus on other important responsibilities, such as medication error reduction and pharmacy interventions
- **Reduces Labor Requirements—**
 Lets you redeploy personnel to patient care or new pharmacy services

Cost Savings.

- Reduces supply expenses
- Reduces labor requirements
- Reduces inventory carrying cost
- Reduces waste

Outlook® 100ES Safety Infusion System

The Outlook 100ES Safety Infusion System is designed to help prevent IV medication errors. The Outlook 100ES features an improved color display, up to 15 customizable Care Areas within the DoseGuard™ drug library along with the ability to continually display dosing limits using a novel visual display. New loading dose and bolus capabilities, hard and soft limits, RateGuard™ rate limits, clinical advisories and enhanced battery capability make the Outlook 100ES the logical choice for hospitals of any size who need a safe, reliable and easy to use Infusion pump.

Outlook 100ES Infusion Device	621-100ES	621-100ES	1
Syringe Holder	FZ0054	FZ0054	24

Outlook 200ES Safety Infusion System

The Outlook 200ES Safety Infusion System incorporates all of the newly enhanced features found in the Outlook 100ES. It also includes the patented DoseScan™ technology, which uses bar codes to help ensure that the Right Patient receives the Right Medication at the Right Dose by the authorized clinician at the point of care. New, flexible scan options allow for greater choices in meeting a hospital's bar coding needs including DoseGuard/RateGuard Override Scan, Bolus Authorization Scan, and Dual Clinician Scan for critical medications.

-------------	--------------	------------	------

Outlook® 300ES Safety Infusion System

The Outlook 300ES Safety Infusion System incorporates all of the features and technology found in the Outlook 200ES as well as the patented DoseCom™ feature. The DoseCom feature in the Outlook 300ES allows the transmission of real-time infusion data across the hospital's existing 802.11 a, b or g wireless network. The Outlook 300ES is also compatible with the DoseTrac® Infusion Management Software for evaluating the safety, efficiency and efficacy of your IV therapy process.

Outlook 400ES Safety Infusion System

The Outlook 400ES Safety Infusion System incorporates all of the features and technology found in the Outlook 300ES plus the ability to utilize bi-directional wireless data to provide a method to customize communications for your institutions infusion therapy needs. The Outlook 400ES is also compatible with the DoseTrac Infusion Management Software for evaluating the safety, efficiency and efficacy of your IV therapy process.

DoseTrac Infusion Management Software

The DoseTrac Infusion Management Software (IMS) provides the ability to capture transmitted data from the Outlook 300 and Outlook 400 infusion devices to help you proactively evaluate your IV therapy program. All members of the infusion team can benefit from the real-time views and custom reporting capabilities of the DoseTrac software. Optional scheduled reporting capabilities allow authorized users to define custom report formats for automatic delivery.

Outlook Pump Measured Volume Solution Administration Set with SAFELINE Injection Sites, without Automatic Shutoff

(60 drops/mL) Non-vented spike, roller clamp, 150 mL burette chamber with SAFELINE Injection site and 15 micron filter, slide clamp, pressure limited check valve, free-flow protector clip, roller clamp, SAFELINE split septum injection sites 84 in. and 6 in. above distal end, slide clamp, SPIN-LOCK connector. Priming volume: 24 mL, Length 120 in. (305 cm)	NF3115M	375122	20
--	---------	--------	----

Outlook Pump Blood Administration Set with SAFELINE Injection Site

(10 drops/mL) Y-type, non-vented spikes, two roller clamps, drip chamber with 170 micron blood filter, free-flow protector clip, roller clamp, SAFELINE split septum injection site 6 in. above distal end, SPIN-LOCK connector. Priming Volume: 46 mL, Length: 138 in. (351 cm)	NF3120	NF3120	24

Infusion Pumps

Description	Product Code	REF Number	Qty.
<p>Perfusor® Space Syringe Pump</p>  <p>Perfusor Space is designed for today's busy acute care hospital settings, and for use in ambulatory surgery needs in the outpatient marketplace. It provides a +-2% delivery and bolus rate accuracy for 3-60 cc syringe sizes by Tyco Monoject®, Becton Dickinson Plastipak®, and Terumo.</p>	8713030U	8713030U	1
<p>Infusomat® Space Large Volume Pump</p>  <p>With its highly customizable features, anti freeflow dedicated set integration, bolus options and occlusion pressure settings, the pump provides additional value to Space's compact design modularity.</p>	8713050U	8713050U	1
<p>Space PCA Infusion Pump System</p>  <p>B. Braun's Perfusor Space PCA Syringe Pump features advanced delivery features that offer safety and accuracy for adult and pediatric patients in any care setting where ease of use and precise medication administration are of critical importance.</p>	8713080U	8713080U	1
<p>SpaceStation</p>  <p>This product accommodates any combination of up to four Infusomat Space or Perfusor Space pumps in each housing unit. The individual units can be interconnected and require only one power cord to charge all inserted pumps. It also includes a lever-to-release universal pole clamp, tubing guides, and rotary knobs to release individual pumps. A SpaceCover Comfort is required for each stand-alone Space Station.</p>	8713140U	8713140U	1
<p>SpaceCover Comfort</p>  <p>This top portion of the SpaceStation system must always cover the uppermost segment of the SpaceStation. It also provides a handle for transport of all connected SpaceStations. Its design contains a central loudspeaker for alarm volume control with a touch pad on side. A frontal central alarm display also advises of operating alarms in the form of a red, green, or yellow light.</p>	8713145U	8713145U	1

Infusomat® Space Pump Sets with ULTRASITE® Needleless IV System

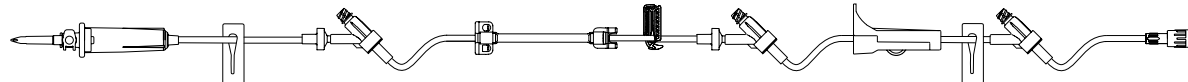

Components on this page do not contain DEHP or natural rubber latex.

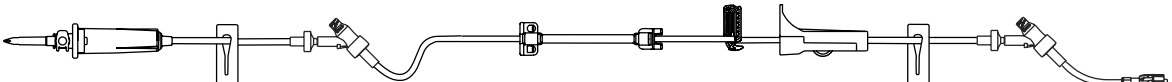

Description	Product Code	REF Number	Units Per cs
-------------	--------------	------------	--------------

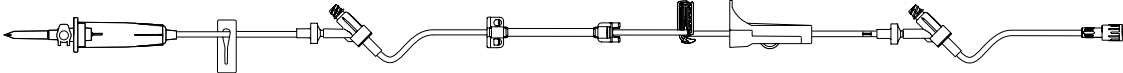

Infusomat Space Pump IV Administration Sets

	(15 drops/mL) Universal spike, 3 ULTRASITE injection sites, 2 roller clamps, pressure limited check valve, backcheck valve, SPIN-LOCK® connector. Priming volume: 21 mL, Length: 118 in. (300 cm)	362432	362432	24
--	---	--------	--------	----

	(15 drops/mL) Universal spike, free flow protection clamp, roller clamp, ULTRASITE injection site 6 inches above distal end, SPIN-LOCK connector. Priming volume: 23 mL, Length: 120 in. (305 cm)	490031	490031	24
--	---	--------	--------	----

	(15 drops/mL) Universal spike, slide clamp, pressure limited check valve, three ULTRASITE injection sites 104 inches, 70 inches, and 6 inches above distal end, free flow protection clamp, backcheck valve, roller clamp, slide clamp, SPIN-LOCK connector. Priming volume: 22 mL, Length: 120 in. (305 cm)	490032	490032	24
--	--	--------	--------	----

	(15 drops/mL) Universal spike, slide clamp, pressure limited check valve, two ULTRASITE injection sites 88 inches and 6 inches above distal end, free flow protection clamp, backcheck valve at distal Y-site, roller clamp, slide clamp, SPIN-LOCK connector. Priming volume: 22 mL, Length: 120 in. (305 cm)	490036	490036	24
--	--	--------	--------	----

	(60 drops/mL) Universal spike, slide clamp, pressure limited check valve, two ULTRASITE injection sites 82 inches and 6 inches above distal end, free flow protection clamp, roller clamp, flow restrictor, backcheck valve at distal Y-site, SPIN-LOCK connector. Priming volume: 21 mL, Length: 115 in. (292 cm)	490042	490042	24
---	--	--------	--------	----

Infusomat Space Pump Filtered Primary Additive IV Sets

	(15 drops/mL) Universal spike, slide clamp, pressure limited check valve, two ULTRASITE injection sites 85 inches and 6 inches above distal end, free flow protection clamp, roller clamp, SUPOR® 1.2 micron air-eliminating filter, slide clamp, SPIN-LOCK connector. Priming volume: 22 mL, Length: 120 in. (305 cm)	490033	490033	24
--	--	--------	--------	----

	(15 drops/mL) Universal spike, slide clamp, pressure limited check valve, two ULTRASITE injection sites 82 inches and 6 inches above distal end, free flow protection clamp, roller clamp, SUPOR 0.2 micron air-eliminating filter, slide clamp, SPIN-LOCK connector. Priming volume: 19 mL, Length: 120 in. (305 cm)	490041	490041	24
--	---	--------	--------	----

Infusomat Space Pump Burette Set without Automatic Shutoff

	(60 drops/mL) Non-vented spike, roller clamp, 150 mL burette with 15 micron air guard filter and ULTRASITE injection site, slide clamp, pressure limited check valve, two ULTRASITE injection sites 71 inches and 6 inches above distal end, free flow protection clamp, roller clamp, flow restrictor, backcheck valve at distal Y-site, slide clamp, SPIN-LOCK connector. Priming volume: 19 mL, Length: 120 in. (305 cm)	490034	490034	20
--	---	--------	--------	----

Description	Product Code	REF Number	Units Per cs
-------------	--------------	------------	--------------

Infusomat Space Pump IV Administration Set with ULTRABLOCK™ UV Resistant Tubing

(15 drops/mL) Universal spike, free flow protection clamp, roller clamp, SUPOR® 0.2 micron air-eliminating filter, slide clamp, ULTRASITE injection site 6 inches above distal end, SPIN-LOCK connector. 490040 490040 24
Priming volume: 23 mL, Length: 119 in. (302 cm)

(15 drops/mL) Universal spike, free flow protection clamp, roller clamp, SUPOR® 0.2 micron air-eliminating filter, slide clamp, CARESITE® injection site 6 inches above distal end, SPIN-LOCK connector. 470119 470119 24
Priming volume: 23 mL, Length: 119 in. (302 cm)

Infusomat Space Pump Y-Type Blood Set

Two non-vented spikes, two roller clamps, 170 micron blood filter, free flow protection clamp, roller clamp, backcheck valve, ULTRASITE injection site 6 inches above distal end, SPIN-LOCK connector. 490043 490043 24
Priming volume: 39 mL, Length: 120 in. (305 cm)

Infusomat Space Pump Add-On Set

Free-flow protection clamp, roller clamp, ULTRASITE injection site 6 inches above distal end, 490030 490030 24
Priming volume: 13 mL, Length: 88 in. (224 cm)

Infusomat Space Pump Sets without Injection Sites

Infusomat Space Pump IV Administration Set

(15 drops/mL) Universal spike, roller clamp, free flow protection clamp, slide clamp, SPIN-LOCK connector. 490035 490035 24
Priming volume: 16 mL, Length: 86 in. (218 cm)

Infusomat Space Pump IV Administration Set with Microbore Tubing for Epidural Administration

(60 drops/mL) Universal spike, free flow protection clamp, slide clamp, SPIN-LOCK connector. 490038 490038 24
Priming volume: 13 mL, Length: 127 in. (323 cm)

Infusomat Space Pump Low Adsorption Set

(60 drops/mL) Universal spike, free flow protection clamp, roller clamp, SPIN-LOCK connector. 490037 490037 24
Priming volume: 25 mL, Length: 136 in. (345 cm)

Infusion Systems

Description	Product Code	REF Number	Units Per cs
-------------	--------------	------------	--------------

Infusomat Space Pump Burette Sets without Automatic Shutoff

(60 drops/mL) Non-vented spike, roller clamp, 150 mL burette with 15 micron air guard filter and SAFELINE injection site, slide clamp, pressure limited check valve, flow restrictor, two SAFELINE injection sites 71 inches and 6 inches above distal end, free flow protection clamp, roller clamp, slide clamp, SPIN-LOCK connector. Components do not contain DEHP or natural rubber latex. Priming volume: 19 mL, Length: 120 in. (305 cm)

362034 362034 20

(20 drops/mL) Non-vented spike, roller clamp, 150 mL burette with 15 micron air guard filter and SAFELINE injection site, slide clamp, free flow protection clamp, three SAFELINE injection sites 62 inches, 35 inches and 6 inches above distal end, roller clamp, SPIN-LOCK connector. Components do not contain DEHP or natural rubber latex. Priming volume: 19 mL, Length: 120 in. (305 cm)

362044 362044 20

Infusomat Space Pump IV Administration Sets

(15 drops/mL) Universal spike, slide clamp, pressure limited check valve, three SAFELINE injection sites 104 inches, 70 inches and 6 inches above distal end, free flow protection clamp, roller clamp, slide clamp, SPIN-LOCK connector. Components do not contain DEHP or natural rubber latex. Priming volume: 22 mL, Length: 120 in. (305 cm)

362032 362032 24

(15 drops/mL) Universal spike, slide clamp, pressure limited check valve, two SAFELINE injection sites 88 inches and 6 inches above distal end, free flow protection clamp, roller clamp, slide clamp, SPIN-LOCK connector. Components do not contain DEHP or natural rubber latex. Priming volume: 22 mL, Length: 120 in. (305 cm)

362036 362036 24

(60 drops/mL) Universal spike, slide clamp, pressure limited check valve, two SAFELINE injection sites 82 inches and 6 inches above distal end, free flow protection clamp, roller clamp, flow restrictor before distal injection site, SPIN-LOCK connector. Components do not contain DEHP or natural rubber latex. Priming volume: 21 mL, Length: 115 in. (292 cm)

362042 362042 24

(15 drops/mL) Universal spike, slide clamp, pressure limited check valve, 3 SAFELINE injection sites, Supor® Membrane 0.2 micron air eliminating filter, roller clamp, SPIN-LOCK connector. Components do not contain DEHP or natural rubber latex. Priming volume: 26 mL, Length: 124 in. (315 cm)

362050 362050 24

Infusomat Space Pump Y-Type Blood Set

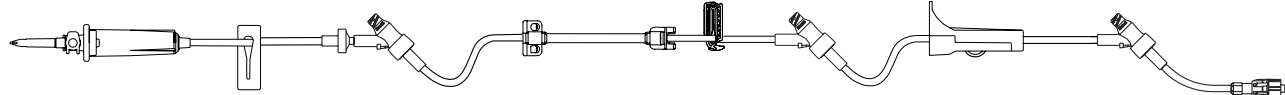

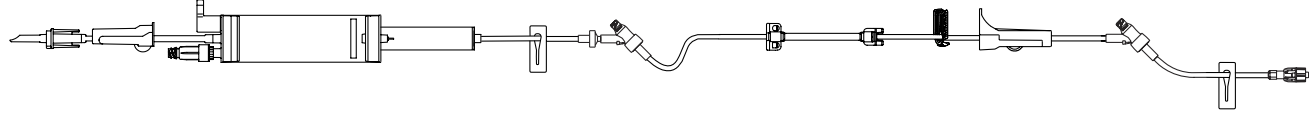

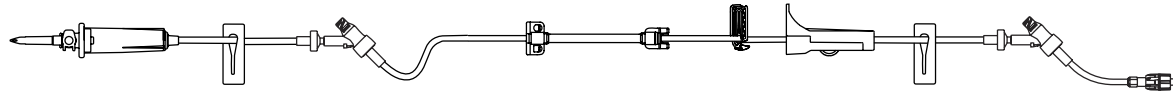

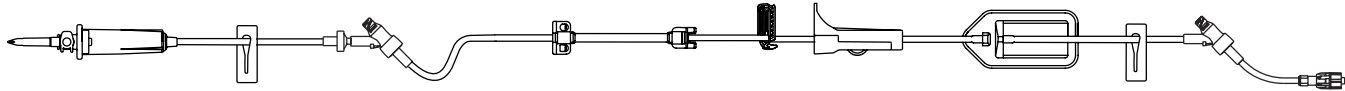

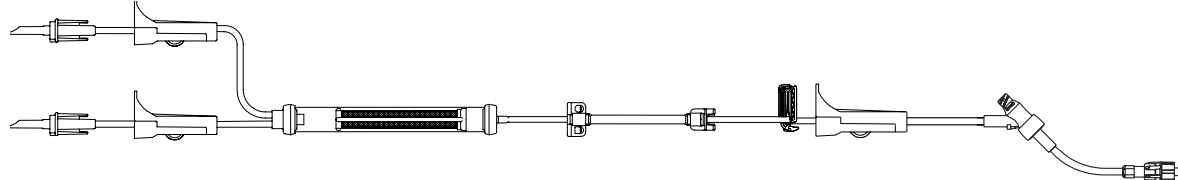

Two non-vented spikes, three roller clamps, 170 micron blood filter, free flow protection clamp, SAFELINE injection site 6 inches above distal end, SPIN-LOCK connector. Components do not contain natural rubber latex. Priming volume: 39 mL, Length: 120 in. (305 cm)

362043 362043 24

BodyGuard® Infusion Pumps

Product code

BodyGuard 323 Infusion Pump Kit: Standard Battery and Pole-Mount Charger

100-510PXS

Kit includes:

- BodyGuard 323 Infusion Pump
- Rechargeable Li-Polymer Standard Battery, 1800mAh
- Pole-Mount Charger
- Operator's Manual

- Dimensions: 4.5 X 3.5 X 1.6 inches (112 X 89 x 40 mm) (H/W/D)
- Weight: 13.8 oz (390 g) with standard battery

BodyGuard 323 Infusion Pump Kit: Standard Battery and AC Wall Charger

100-517PXS

Kit includes:

- BodyGuard 323 Multi-therapy Infusion Pump
- Rechargeable Li-Polymer Standard Battery, 1800mAh
- AC Wall Charger/Power Adaptor
- Operator's Manual

- Dimensions: 4.5 X 3.5 X 1.6 inches (112 X 89 X 40 mm) (H/W/D)
- Weight: 13.8 oz (390g) with standard battery

BodyGuard 323 Infusion Pump Kit: Extended Battery and AC Wall Charger

100-516PXS

Kit includes:

- BodyGuard 323 Multi-therapy Infusion Pump
- Rechargeable Li-Polymer "Extended Life" Battery, 3600mAh
- AC Wall Charger/Power Adaptor
- Operator's Manual

- Dimensions: 4.5 X 3.5 X 1.6 inches (112 X 89 X 40 mm) (H/W/D)
- Weight: 13.8 oz (390g) with standard battery

BodyGuard 323 Infusion Pump Kit: Extended Battery and Tabletop Charger

100-518PXS

Kit includes:

- BodyGuard 323 Multi-therapy Infusion Pump
- Two Rechargeable Li-Polymer "Extended Life" Batteries, 3600mAh
- Tabletop Charger
- Standard Power Cord
- Operator's Manual

- Dimensions: 4.5 X 3.5 X 1.6 inches (112 X 89 X 40 mm) (H/W/D)
- Weight: 13.8 oz (390g) with standard battery

To order, call 1-800-227-2862

BodyGuard Infusion Pumps (cont.)

Product code

BodyGuard 545 Infusion Pump Kit

100-919PXIS

Kit includes:

- Epidural infusion pump
 - Rechargeable Li-Polymer Battery, Power Cord and Pole Mount Charger
 - Ambulatory and pole mounted
 - Optional pulse oximeter capability
-
- Dimensions: 4.5 X 3.5 X 1.6 inches (112 x 89 x 40 mm) (H/W/D)
 - Weight: 13.8 oz (390 g) with standard battery

BodyGuard 575 Infusion Pump Kit

100-729PXS

Kit includes:

- Pain management infusion pump
 - Rechargeable Li-Polymer Battery, Power Cord and Pole Mount Charger
 - Pre-program up to 26 drug protocols
 - Ambulatory and pole-mounted
 - Optional PCA Bolus Button Cable
-
- Dimensions: 4.5 X 3.5 X 1.6 inches (112 x 89 x 40 mm) (H/W/D)
 - Weight: 13.8 oz (390 g) with standard battery

BodyGuard 121 Infusion Pump Kit

100-908PTS

Kit includes:

- Dual channel infusion pump
 - Pole Mount Charger and Power Cord
 - Ambulatory and pole mounted
 - Optional drop sensor for each channel
-
- Dimensions: 5.7 X 3.3 X 1.6 inches (146 x 84 x 40 mm) (H/W/D)
 - Weight: 15.9 oz (450 g) with internal battery

To order, call 1-800-227-2862

Chargers, Batteries, Cables and Cords

Product code

Pole-Mount Charger

150-314XUP

- Fits the BodyGuard 323 pump
- Bright screen displays pump messages and delivery values
- Release button allows quick removal for ambulatory applications

Pole-Mount Charger with RS 232 Cable and Power Cord

150-318XP

Tabletop Charger

150-331XP

- Recharges Standard and "Extended Life" Li-Polymer Batteries
- Connects to wall (AC) outlet using Standard Power Cord
- Battery recharge time approximately 6 to 8 hours

Wall Charger

150-336XP

- Connects pump to wall (AC) power
- Connector plugs into pump DC Port
- Trickle-charges battery while providing pump power

Disposable Battery Pack, 9V

130-050X2P

- Holds two (2) 9-volt alkaline batteries
- Provides 8 to 10 hours of pump operation at infusion rate of 125 mL/hr
- Alternative to using Rechargeable Li-Polymer Battery

Rechargeable Li-Polymer Battery, 1800 mAh

130-050XAP

- Standard battery supplied with BodyGuard 323 pump
- Provides 16 to 18 hours operating time at 125 mL/hr; 36 hours at 5 mL/hr

To order, call 1-800-227-2862

Chargers, Batteries, Cables and Cords (cont.)

Product code

Rechargeable Li-Polymer Battery, 3600 mAh

130-051XP

- Recharges Standard and "Extended Life" Li-Polymer Batteries
- Connects to wall (AC) outlet using Standard Power Cord
- Battery recharge time approximately 6 to 8 hours

Bolus Button Cable

140-000XP

- Cable 140-000XP
- Provides additional means for administering PCA bolus doses
- Connects to pump Bolus Jack

DC Cable

196-000XP

- For charging pump when in Lock Box
- Connects from pump DC Port to Pole-Mount Charger or Tabletop Charger

Hospital Power Cord

CL60106P

RS 232 Cable

SDC-01P

Standard Power Cord

SPC-01P

- Connects Pole-Mount Charger or Tabletop Charger to wall (AC) outlet
- 3 prong plug-in / 3 prong outlet

To order, call 1-800-227-2862

BodyComm® Pump Communication System

Product code

BodyComm System Kit

CommBG323P

Kit includes:

- BodyComm Software
- Pole-Mount Charger
- Serial RS 232 Cable
- AC Power Cord
- Instruction Sheet
- Computer not included

Computer System Requirements:

- PC running Microsoft Windows XP® or Windows Vista®
- Serial Port
- Optional: Microsoft Excel® to save data as Excel files

Features:

- Download a record of up to 500 pump events, including alarms and keypad actions taken by user
- Download hour-by-hour history views of normal pump operation
- Select and save desired device settings (infusion mode, flow rate, maximum pressure, etc) as a template to program multiple pumps identically

Lock Boxes and Other Accessories

500 mL Lock Box

190-000XCP

- Pole-mountable
- Holds up to 500 mL reservoir bag
- Compatible with all brands of collapsible reservoir bags (right-angled spike set available for longer bags)
- Two locks: one for pump/bag access, second to lock box onto IV pole
- Can be placed on bed stand; has handle for carrying
- Exit ports for power cord, bolus button cable, tubing set

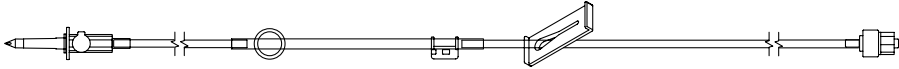

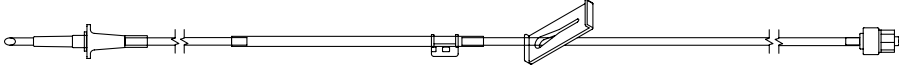

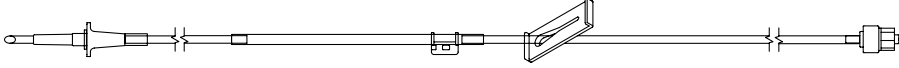

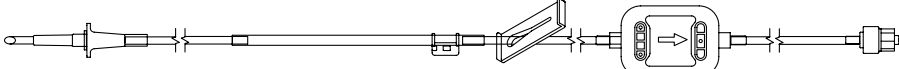

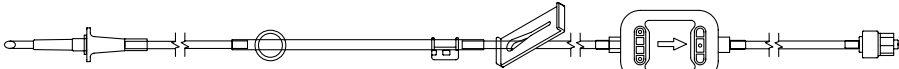

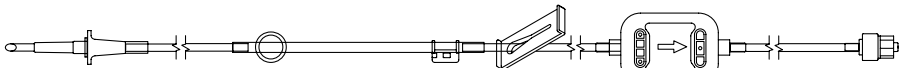

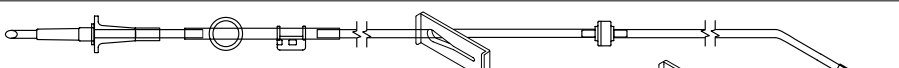

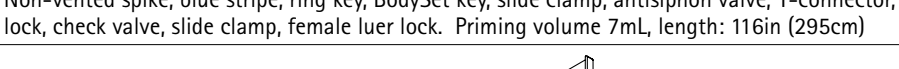

Lock Box Replacement Keys (Set of 3)

BodyGuard® Pump Administration Sets

Description	Product Code	Units per Case
Recommended for use with the CME BodyGuard® ColorVision™ 575 PCA and CME BodyGuard 323 Pumps (Microbore)		
 Vented spike, blue stripe, ring key, Bodysset key, slide clamp, male luer lock/antisyphon valve. Priming volume: 7mL, length: 130in (330cm)	A120-161XPSV	20
 Non-vented spike, blue stripe, Bodysset key, slide clamp, male luer lock/antisyphon valve. Priming volume: 4mL, length: 83in (210cm)	A120-160XPS	20
 Non-vented spike, blue stripe, Bodysset key, slide clamp, male luer lock/antisyphon valve. Priming volume: 6mL, length: 110in (280cm)	A120-161XPS	20
 Non-vented spike, blue stripe, Bodysset key, slide clamp, 0.2 micron filter, male luer lock/antisyphon valve. Priming volume: 9mL, length: 134in (340cm)	A120-160XSFE	16
 Non-vented spike, blue stripe, ring key, Bodysset key, slide clamp, 1.2 micron filter, male luer lock/ antisyphon valve. Priming volume: 8mL, length: 110in (280cm)	A120-112XSFK	16
 Non-vented spike, blue stripe, ring key, Bodysset key, slide clamp, 0.2 micron filter, male luer lock/ antisyphon valve. Priming volume: 8mL, length: 110in (280cm)	A120-160XSFK	16
 Non-vented spike, blue stripe, ring key, BodySet key, slide clamp, antisyphon valve, Y-connector, male luer lock, check valve, slide clamp, female luer lock. Priming volume 7mL, length: 116in (295cm)	A120-161XYBS	16
 Female luer lock, blue stripe, Bodysset key, slide clamp, male luer lock/antisyphon valve. Priming volume: 1mL, length: 12in (30cm)	A120-160XPSN	20
 Male Luer lock, blue stripe, ring key, Bodysset key, slide clamp, 0.2 micron filter, antisyphon valve, Y-connector, female luer lock, check valve, slide clamp, male luer lock. Priming volume: 8mL, length: 130in (330cm)	A120-160XYBF	16

Syringe Pump Fluid Path Microbore Extension Sets – Polyethylene lined

Components do not contain DEHP

Female luer and distal male luer lock. Microbore extension set, 0.02 in. ID. with fluid path that does not contain PVC. Priming volume: 0.3 mL, Length: 36 in. (91 cm)

V6220

V6220

50

Female luer and distal male luer lock. Microbore extension set, 0.03 in. ID. with fluid path that does not contain PVC. Use with higher flow rates and viscous fluids. Priming volume: 0.6 mL, Length: 36 in. (91 cm)

V6203

V6203

50

Female luer and distal male luer lock, slide clamp. Microbore extension set, 0.02 in. ID. with fluid path that does not contain PVC. Priming volume: 0.5 mL, Length: 60 in. (152 cm)

V6222

V6222

50

Female luer and distal male luer lock, slide clamp. Microbore extension set, 0.03 in. ID. with fluid path that contains no PVC. Use with higher flow rates and viscous fluids. Priming volume: 0.8 mL, Length: 60 in. (152 cm)

V6223

V6223

50

Female luer and distal male luer lock. Microbore extension set, 0.03 in. ID. with fluid that contains no PVC, 0.2 micron filter. Priming volume: 1.3 mL, Length: 60 in. (152 cm)

V6215

V6215

50

Syringe Pump Microbore Extension Sets with Proximal and Distal Male Luer Locks

Proximal and distal male luer locks. Microbore extension set, 0.04 in. ID., slide clamp. Priming volume: 0.6 mL, Length: 31 in. (79 cm)

V5450

V5450

50

Proximal and distal male luer locks. Microbore extension set, 0.04 in. ID., slide clamp. Priming volume: 1.2 mL, Length: 63 in. (160 cm)

Description

PERIPHERAL EXTENSION SETS

Small Bore T-Port Extension Sets

Female luer lock connector, removable slide clamp, distal T-port with male luer slip connector. Components do not contain DEHP or natural rubber latex. Priming volume: 0.3 mL. Length: 5 in. (13 cm)

ET04T 471950 100

Female luer lock connector, removable slide clamp, distal T-port with SPIN-LOCK® connector. Components do not contain DEHP or natural rubber latex. Priming volume: 0.1 mL. Length: 4 in. (10.2 cm)

ET04TS 471954 100

Female luer lock connector, on/off clamp, distal T-port with male luer slip connector. Components do not contain DEHP or natural rubber latex. Priming volume: 0.3 mL. Length: 7 in. (18 cm)

ET06THR 471962 100

Female luer lock connector, removable slide clamp, distal T-port with male luer slip connector. Components do not contain natural rubber latex. Priming volume: 1.2 mL. Length: 38 in. (97 cm)

ET38T 473022 100

Female luer lock connector, normally closed backcheck valve, removable slide clamp, distal T-port with male luer slip connector. Components do not contain DEHP or natural rubber latex. Priming volume: 1.1 mL. Length: 31 in. (76 cm)

Syringe Pump PVC-free Fluid Path Microbore Extension Sets

Components on this page do not contain natural rubber latex.

Female luer and distal male luer lock. Microbore extension set, 0.02 in. ID. tubing with fluid path that does not contain PVC. Priming volume: 0.3 mL, Length: 36 in. (91 cm)

V6220 V6220 50

Female luer and distal male luer lock. Microbore extension set, 0.03 in. ID. tubing with fluid path that does not contain PVC. Use with higher flow rates and viscous fluids. Priming volume: 0.6 mL, Length: 36 in. (91 cm)

V6203 V6203 50

Female luer and distal male luer lock. Microbore extension set, 0.02 in. ID. tubing with fluid path that does not contain PVC. Priming volume: 0.5 mL, Length: 60 in. (152 cm)

V6222 V6222 50

Female luer and distal male luer lock. Microbore extension set, 0.03 in. ID. with fluid path that does not contain PVC. Use with higher flow rates and viscous fluids. Priming volume: 0.8 mL, Length: 60 in. (152 cm)

V6223 V6223 50

Female luer and distal male luer lock. Microbore extension set, 0.2 micron filter, 0.03 in. ID. tubing with fluid path that does not contain PVC. Priming volume: 1.3 mL, Length: 60 in. (152 cm)

V6215 V6215 50

Syringe Pump Microbore Extension Sets with Proximal and Distal Male Luer Locks

Proximal and distal male luer locks. Microbore extension set, 0.04 in. ID., removable slide clamp. Priming volume: 0.7 mL, Length: 31 in. (79 cm)

V5450 V5450 50

Proximal and distal male luer locks. Microbore extension set, 0.04 in. ID., removable slide clamp. Priming volume: 1.2 mL, Length: 63 in. (160 cm)

V5456 V5456 50

Microbore Extension Set

Female luer connector, removable slide clamp, male luer lock connector. Priming volume: 0.6 mL. Length 19 in. (48 cm)

CARESITE Standard Bore Extension Sets

Components on this page do not contain DEHP or natural rubber latex.

Standard bore extension set with non-removable slide clamp, CARESITE valve injection site, SPIN-LOCK® connector. Priming volume: 1.54 mL, Length: 8 in. (20 cm)

354219 354219 50

Standard bore extension set with two CARESITE valve injection sites 28 in. and 6 in. above distal end, non-removable slide clamp, SPIN-LOCK connector. Priming volume: 5.4 mL, Length: 35 in. (89 cm)

354220 354220 50

Filterflow® Filtered Extension Sets with CARESITE Injection Site

0.2 micron filter, CARESITE valve injection site 6 in. above distal end, on/off clamp, SPIN-LOCK connector. Priming volume: 5.2 mL, Length: 16 in. (40.6 cm)

354221 354221 50

1.2 micron filter, CARESITE valve injection site 6 in. above distal end, on/off clamp, SPIN-LOCK connector. Priming volume: 4.5 mL, Length: 16 in. (40.6 cm)

470117 470117 50

Filterflow Filtered Administration Set with CARESITE Injection Sites

15 drops/mL) Universal spike, backcheck valve, CARESITE injection sites 87 in. and 6 in. above distal end, roller clamp, 0.2 micron filter, slide clamp, SPIN-LOCK connector. Priming volume: 21.2 mL, Length: 104 in. (264.2 cm)

354207 354207 50

(15 drops/mL) Universal spike, roller clamp, 1.2 micron filter, slide clamp, CARESITE injection site 6 in. above distal end, SPIN-LOCK connector. Priming volume: 18.9 mL, Length 91 in. (231.1cm)

ULTRASITE® Valve Needleless System

Description	Product Code	REF Number	Units Per cs
-------------	--------------	------------	--------------

ULTRASITE Valves

Components on this page do not contain DEHP or natural rubber latex.

ULTRASITE valve for aspiration, injection or gravity flow of fluid upon insertion of a male luer fitting. 300 psi pressure rated. Priming volume: 0.35 mL.

CSU100 415110 100

ULTRASITE Ag antibacterial valve for aspiration, injection or gravity flow of fluid upon insertion of a male luer fitting. 45 psi pressure rated. Priming volume: 0.35 mL.

415119 415119 200

Dispensing Pins with ULTRASITE Valve

MINI-SPIKE® Dispensing Pin with ULTRASITE valve for rubber-stoppered vials. Two-way valve for aspiration or injection. Utilizes a bacterial retentive air-venting filter.

US50 412026 50

MINI-SPIKE Dispensing Pin with ULTRASITE valve and security clip. For attachment to standard 20mm rubber-stoppered vials. Two-way valve for aspiration or injection. Utilizes a bacterial retentive air-venting filter.

DP1800SC 413504 50

Non-vented dispensing pin with ULTRASITE valve. Two-way valve for aspiration or injection.

US10 412027 50

Non-vented dispensing pin with One-Way Valve and ULTRASITE® valve. For aspiration of medication from inverted bags or semi-rigid plastic containers.

DPO4000L 412023 50

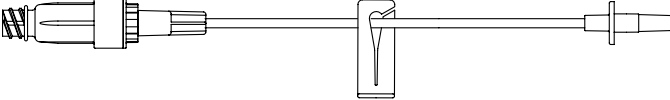

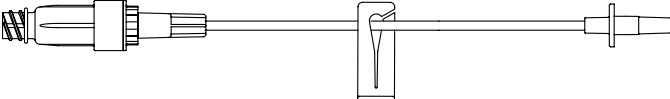

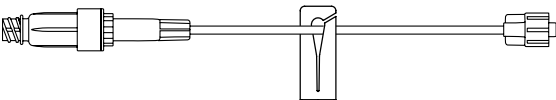

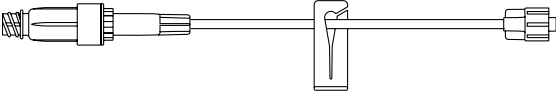

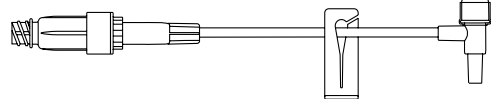

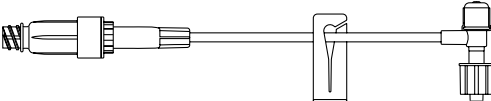

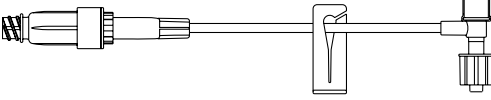

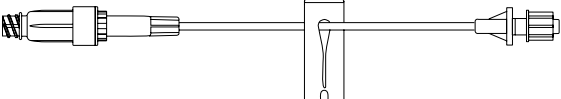

Accessories for ULTRASITE Valve

Luer slip adapter. Provides a secure connection between a male luer slip connector and the ULTRASITE valve.

CSC1 654499 100

NERVE STIMULATOR, STIMULATOR ACCESSORIES AND SINGLE SHOT NERVE BLOCK NEEDLES

Description	Product Code	REF Number	Units Per Cs
STIMUPLEX® Nerve Stimulator Products			
STIMUPLEX HNS12 Nerve Stimulator with SENSE*, with four-pin electrode connecting cable, 9V battery, testing resistor and Operation Manual in carrying case	HNS12	4892098	1
STIMUPLEX SWITCH Nerve Stimulator current selector between needle/catheter (for use with HNS11 and HNS12 only)	STIMSWITCH	333543	1
STIMUPLEX PEN Percutaneous nerve mapping device (for use with HNS11 and HNS12 only) and operation manual in carrying case	STIMPEN	333544	1
STIMUPLEX Remote Control (for use only with Stimuplex DigRC or HNS12)	RC300	333559	1
STIMUPLEX Dig RC replacement electrode connecting cable (for use with STIM300)	SEC3	333556	1
STIMUPLEX Dig electrode connecting cable with four-pin plug (for use with STIM200 only)	SEC2	333546	1
STIMUPLEX HNS11 replacement electrode connecting cable (for use with HNS11 and HNS12 only)	HEC	333576	1
STIMUPLEX® A Insulated Needles with 30° Bevel (for use with STIMUPLEX nerve stimulators)			
20 Ga. x 6 in. (150 mm) Insulated Needle with Extension Set		4894278	25
21 Ga. x 4 in. (100 mm) Insulated Needle with Extension Set		4894260	25
22 Ga. x 1 in. (25 mm) Insulated Needle with Extension Set		4894539	25
22 Ga. x 1 3/8 in. (35 mm) Insulated Needle with Extension Set		4894367	25
22 Ga. x 2 in. (50 mm) Insulated Needle with Extension Set		4894502	25
24 Ga. x 1 in. (25 mm) Insulated Needle with Extension Set		4894251	25
NEW STIMUPLEX Ultra Insulated Echogenic Needles with 30° Bevel (for use with Ultrasound and STIMUPLEX nerve stimulators)			
22 Ga. x 1 3/8 in. (35 mm) Insulated Echogenic Needle with Extension Set	STIMAU2235/30	333650	25
22 Ga. x 2 in. (50 mm) Insulated Echogenic Needle with Extension Set	STIMAU2250/30	333652	25
22 Ga. x 3 1/8 in. (80 mm) Insulated Echogenic Needle with Extension Set	STIMAU2280/30	333654	25
22 Ga. x 4 in. (100 mm) Insulated Echogenic Needle with Extension Set	STIMAU22100/30	333656	25
20 Ga. x 6 in. (150 mm) Insulated Echogenic Needle with Extension Set	STIMAU20150/30	333660	25
STIMUPLEX D Insulated Needles with 30° and 15° Bevel (for use with STIMUPLEX nerve stimulators)			
22 Ga. x 2 in. (50 mm) Insulated Needle with Extension Set, 30° Bevel	STIMD2250/30	333689	25
22 Ga. x 3 1/8 in. (80 mm) Insulated Needle with Extension Set, 15° Bevel	STIMD2280/15	333674	25
22 Ga. x 3 1/8 in. (80 mm) Insulated Needle with Extension Set, 30° Bevel	STIMD2280/30	333684	25
22 Ga. x 4 3/4 in. (120 mm) Insulated Needle with Extension Set, 15° Bevel	STIMD22120/15	333676	25
23 Ga. x 2 3/4 in. (70 mm) Insulated Needle with Extension Set, 15° Bevel	STIMD2370/15	333672	25
25 Ga. x 1 3/8 in. (35 mm) Insulated Needle with Extension Set, 15° Bevel	STIMD2535/15	333670	25
PLEXUFIX® Brachial Plexus Sets (B-Plex® Non-Insulated Needles)			
22 Ga. x 1 in. (25 mm) Needle and Extension Set, 30° Bevel	BP2210	332017	25
22 Ga. x 1 1/2 in. (40 mm) Needle and Extension Set, 45° Bevel	BP2215	332015	25
22 Ga. x 2 in. (50 mm) Needle and Extension Set, 30° Bevel	BP2220	332010	25
24 Ga. x 1 in. (25 mm) Needle and Extension Set, 30° Bevel	BP2410	332001	25
24 Ga. x 2 in. (50 mm) Needle and Extension Set, 30° Bevel	BP2420	332000	25
NEW ULTRAPLEX Non-Insulated Echogenic Needles with 30° Bevel (for use with Ultrasound)			
22 Ga. x 1 3/8 in. (35 mm) Non-Insulated Echogenic Needle with Extension Set	UPLEX2235/30	333662	25
22 Ga. x 2 in. (50 mm) Non-Insulated Echogenic Needle with Extension Set	UPLEX2250/30	333664	25
22 Ga. x 3 1/8 in. (80 mm) Non-Insulated Echogenic Needle with Extension Set	UPLEX2280/30	333666	25
20 Ga. x 4 in. (100 mm) Non-Insulated Echogenic Needle with Extension Set	UPLEX20100/30	333668	25

CONTINUOUS NERVE BLOCK SETS

Description	Product Code	REF Number	Units Per Cs
NEW CONTIPLEX® C Continuous Catheter-Over-Needle Nerve Block Sets (Insulated Needle) with C-Grip (catheter visible under ultrasound)			
19 Ga. x 18.7 cm catheter OVER 25 Ga. x 19 cm needle with:			
30° bevel	CONTIPLEXC/30	333697	5
15° bevel	CONTIPLEXC	333696	5
Above sets include: One Catheter Connector, One 0.2 µm Procedural Filter, One PinPad Securement Device, One 30cm Connection Tubing			
NEW CONTIPLEX Tuohy Ultra Continuous Nerve Block Sets (Insulated Echogenic Tuohy Needle) with Non-Stimulating Catheter			
18 Ga. x 2 in. (50 mm)	CNB200TU	331673	12
18 Ga. x 4 in. (100 mm)	CNB400TU	331674	12
18 Ga. x 6 in. (150 mm)	CNB600TU	331676	12
Above sets include: One Sideport Valve Assembly with Extension Tubing, One 20 Ga. x 39 in. (100 cm) Polyamide Nylon Catheter with Closed Tip, One Catheter Connector, One Threading Assist Guide			
NEW CONTIPLEX FX Continuous Nerve Block Sets (Non-Insulated Tuohy Needle) with Non-Stimulating Springwound Catheter (catheter visible under ultrasound)			
17 Ga. x 3½ in. (80 mm), Open Tip Catheter (MR unsafe)	CNBFX3500	331670	12
17 Ga. x 3½ in. (80 mm), Closed Tip Catheter (MR unsafe)	CNBFX350C	331672	12
Above sets include: One Sideport Valve Assembly with Extension Tubing, One 19 Ga. x 36 in. (91 cm) Polyamide Springwound FX Catheter (MR unsafe), One Catheter Connector, One Threading Assist Guide			
CONTIPLEX STIM Continuous Nerve Block Sets (Insulated Tuohy Needle) with Stimulating Catheter (catheter visible under ultrasound)			
18 Ga. x 2 in. (50 mm)	SCNB2	331757	10
18 Ga. x 4 in. (100 mm)	SCNB4	331758	10
Above sets include: One Sideport Valve Assembly with Extension Tubing, One 20 Ga. Stimulating Catheter with Integrated Wire (MR unsafe), One Catheter Connector, One 0.2 µm Procedural Filter, One Threading Assist Guide			
CONTIPLEX® Tuohy Continuous Nerve Block Sets (Insulated Tuohy Needle) with Non-Stimulating Catheter			
18 Ga. x 1½ in (40 mm)	CNB150	331695	12
18 Ga. x 2 in. (50 mm)	CNB200T	331691	12
18 Ga. x 4 in. (100 mm)	CNB400	331693	12
18 Ga. x 6 in. (150 mm)	CNB600	331694	12
Above sets include: One Sideport Valve Assembly with Extension Tubing, One 20 Ga. x 39 in. (100 cm) Polyamide Nylon Catheter with Closed Tip, One Catheter Connector, One Threading Assist Guide			
CONTIPLEX Straight Continuous Nerve Block Sets (Insulated Needle) with Non-Stimulating Catheter			
18 Ga. x 2 in. (50 mm)	CNB200S	331697	12
18 Ga. x 4 in. (100 mm)	CNB400S	331698	12
18 Ga. x 6 in. (150 mm)	CNB600S	331690	12
Above sets include: One Sideport Valve Assembly with Extension Tubing, One 20 Ga. x 39 in. (100 cm) Polyamide Nylon Catheter with Closed Tip, One Catheter Connector, One Threading Assist Guide			

CONTINUOUS NERVE BLOCK SETS AND SUPPORT TRAYS

Description	Product Code	REF Number	Units Per Cs
CONTIPLEX D Continuous Nerve Block Sets (Catheter over Insulated Needle) with Non-Stimulating Catheter			
22 Ga. x 2 1/8 in (55 mm), 15° Bevel	CNB2055D	331686	12
1 - 20 Ga. x 2 1/8 in. Cannula Introducer over 22 Ga. Short Bevel Insulated Introducer Needle 1 - 24 Ga. Polyamide Styleted Nylon Catheter with Open Tip 1 - Catheter Connector 1 - Threading Assist Guide			
20 Ga. x 2 1/8 in. (55 mm), 15° Bevel	CNB200D/15	331680	12
20 Ga. x 2 1/8 in. (55 mm), 30° Bevel	CNB200D/30	331685	12
CNB200D/15 and CNB200D/30 contain: 1 - 18 Ga. x 2 1/8 in. Cannula Introducer over 20 Ga. Short Bevel Insulated Introducer Needle 1 - 20 Ga. Polyamide Nylon Catheter with Open Tip 1 - Catheter Connector 1 - Threading Assist Guide			
20 Ga. x 4 3/8 in. (110 mm), 15° Bevel	CNB400D/15	331687	12
1 - 18 Ga. x 4 3/8 in. Cannula Introducer over 20 Ga. Short Bevel Insulated Introducer Needle 1 - 20 Ga. Polyamide Nylon Catheter with Open Tip 1 - Catheter Connector 1 - Threading Assist Guide

HEMODIALYSIS PRODUCTS

Dialog⁺® Evolution Hemodialysis System

Dialog ⁺ Evolution Hemodialysis System	710200K	710200K	1
---	---------	---------	---

Standard Features Include:

- Color Touch Flat Screen monitor combined with off-screen hard key entry
- User-definable Profiling for UF, Na, Bicarbonate, Dialysate flow, Temperature, and Heparin
- Online Computerized Diagnostics
- Event Timer
- Online HELP functions
- Stand-by mode
- Technical Service Mode
- Multifunctional Supply Bin

Dialog⁺ Adimea™ – Precise, innovative Real-Time monitoring of the dialysis dose	7102233	7102233	1
Dialog ⁺ UltraPure Fluid Hemodialysis System Filter Kit	7102102	7102102	1
Dialog ⁺ Evolution Hemodialysis System with BIC Holder for Bicarbonate Cartridge	710200L	710200L	1

Thank you for your interest in B. Braun Medical Inc. ("B. Braun") products. The following provisions set forth the terms and conditions on which B. Braun sells its products.

Terms of Sale: Purchase of any products sold by B. Braun shall be subject to and expressly limited by the terms and conditions contained herein. No changes to, waiver of, or addition to any of these terms and conditions shall be effective unless agreed to in writing and signed by B. Braun. Buyer acknowledges and agrees that these terms and conditions supersede the terms and conditions of any purchase order or other documentation used by Buyer and, except for delivery and billing addresses, and quantities prices and items ordered, any conflicting or additional terms are void and have no effect, but that Buyer may place orders by use of purchase orders and other documentation for its convenience purposes only. Notwithstanding the foregoing, B. Braun reserves the right at any time to amend these terms and conditions, and Buyer shall be deemed to accept such amended terms and conditions by ordering products herein offered after the date of such amendment. Additional special terms and conditions of B. Braun may be applicable with respect to certain products.

Minimum Order Quantity: All products must be ordered in full case quantities. Orders received with a value of less than \$250.00 will be subject to a handling charge of \$40.00. Wholesalers and Distributors are subject to a handling charge of \$75.00 for orders less than \$1,000.00.

Prices: All pricing quotes must be documented in writing and signed by B. Braun to be valid. Prices quoted, unless otherwise stated, refer to full case quantities. All prices are firm for 30 days from the date quoted. B. Braun reserves the right to change the prices and specifications of its products at any time without notice.

Products purchased from distributors will be at the prices set by those distributors and subject to the terms and conditions of sale of the distributor.

Tax Information: Any tax, assessment, duty, custom or other fee of any nature imposed upon the products, their sale, transportation, delivery, use or consumption shall be paid by Buyer in addition to the price quoted or invoiced. If B. Braun is required to prepay any such tax or fee, Buyer will reimburse B. Braun. Buyer must provide B. Braun with a resale/exemption certificate in order to avoid the withholding of applicable taxes. No refund or adjustment to previously withheld taxes will be made by B. Braun sixty (60) days after the invoice date. Proof of certification should be mailed to: B. Braun Medical Inc., 824 Twelfth Avenue, Bethlehem, PA 18018-0027.

Payment: Payment terms are net 30 days from date of invoice. Credit card payments will not be accepted without prior approval from B. Braun. Buyer's obligation to pay outstanding invoices and all other amounts is absolute and unconditional and is not subject to any abatement, reduction, set-off, defense, counterclaim, interruption, deferment or recoupment for any reason whatsoever. Balances remaining unpaid at due date are subject to an interest charge of 1.50% per month or the highest rate permitted by law, whichever is lower, until paid. Any discounts, rebates, administrative fees, credits, or other fees due or owed to Buyer will be applied against delinquent balances before payment or reimbursement is made.

Any disputed amounts should be reported immediately and remitted with the undisputed amount by the payment due date. If B. Braun agrees with the billing dispute, B. Braun will credit Buyer the amount of the agreed-upon billing dispute. All billing disputes must be made within six (6) months of the applicable invoice date, or will be deemed to be waived.

B. Braun reserves the right in its sole discretion to require prepayment from any Buyer at any time and may refuse to sell and/or withhold further shipment until all overdue balances are made current. Buyer shall be liable for, and shall reimburse B. Braun for all costs and expenses it may incur in connection with collection of any amounts owed to B. Braun or enforcement of its rights, including without limitation, reasonable attorneys' fees and expenses, court costs, and cost of collection agencies.

Returned Goods Policy: Product returns are subject to the following conditions:

1. All returns are subject to the prior authorization of B. Braun, in its discretion. Buyer must notify Customer Support at (800) 227-2862 and complete a Return Request Form. The Return Request Form requires lot numbers, quantities and catalog numbers along with a specific reason for return. Customer Support will either authorize or deny the request for return. Only items appearing on an approved Return document are acceptable for return. Product returns will only be accepted from the original purchaser. Product returns will not be accepted from third party return companies. Unauthorized returns will be destroyed and no credit issued. All authorized returned goods must be shipped freight prepaid to the B. Braun location indicated on the Return document, except B. Braun will pay freight costs for Product shipped-in-error.

General Ordering Information and Terms of Sale

2. All Products returned within 30 days of delivery are subject to a 25% restocking charge, except for Products shipped-in-error. Products returned after 30 days are considered excess stock and will be eligible for 50% credit. No Products will be accepted for return after 90 days from the date of delivery.
3. Subject to paragraph 2 above, credit will be issued at the net purchase price for all authorized returns provided:
 - a. Products have at least one year shelf-life remaining, or products with original expiration dating of eighteen months or less have at least six months shelf-life remaining.
 - b. Proper authorization has been obtained prior to return of products.
 - c. Products are in their original packaging.
 - d. Products are current inventory items.
 - e. The Products have been shipped and billed to Buyer by B. Braun, and Buyer has paid for said Products.
4. Certain Products are **not eligible for return**. These are:
 - a. Products that have deteriorated because of improper storage, handling, abuse or other factors.
 - b. Products that have been opened, partly used or which the labels or seals have been removed or tampered.
 - c. Products that have been involved in a special promotion sale.
 - d. Broken, damaged or opened cases. Resealed cartons are not eligible for return.
 - e. Special products made to Buyer's specification.
 - f. Sets over two (2) years old, flush syringe products, infusion systems devices, related accessories and IV poles.
5. Products that are to be returned for repair (e.g., medical device equipment) must be accompanied by an approved Repair Notification.

Expiration Date: On dated products, the expiration date is shown as a month and year, e.g., August 2012, 8/12. The date of expiration is the last day of the given month, e.g., August 31, 2012.

Credits for returned goods are conditioned upon B. Braun's inspection and approval of such goods upon their return. If B. Braun determines, in its discretion, that any returned goods are not eligible for return due to any of the reasons provided in paragraph 4 above, Buyer will not receive a credit, even if an Return document was issued. No advance credits will be accepted.

Warranty: With respect to disposable products, B. Braun warrants to the original purchaser that, at time of delivery, each standard product manufactured by B. Braun shall be free of defects in material and workmanship and, when used for the purposes and indications described on the labeling, is fit for the purposes and indications described on the labeling. All warranties for a product shall expire as of product expiration date, or if none, after one (1) year from the date of shipment from B. Braun. B. Braun's warranty hereunder shall not apply if: (i) a product is not used in accordance with its instructions or if it is used for a purpose not indicated on the labeling, (ii) any repairs, alterations or other work has been performed by Buyer or others on such item, other than work performed with B. Braun's authorization and according to its approved procedures; or (iii) the alleged defect is a result of abuse, misuse, improper maintenance, accident or the negligence of any party other than B. Braun. The warranty set forth herein is conditioned upon proper storage, installation, use and maintenance in accordance with applicable written recommendations of B. Braun. The warranty furnished hereunder does not extend to damage to items purchased hereunder resulting in whole or in part from the use of components, accessories, parts or supplies not furnished by B. Braun.

B. Braun's sole obligation shall be to repair or replace, at B. Braun's option, any defective component or item and pay transportation expenses for such replacement. Buyer shall provide labor for the removal of the defective component or item and installation of its replacement at no charge to B. Braun. Buyer shall bear all risk of loss or damage to returned goods while in transit. In the event no defect or breach of warranty is discovered by B. Braun upon receipt of any returned item, the item will be returned to Buyer at Buyer's expense and Buyer will reimburse B. Braun for the transportation charges, labor and associated charges incurred in testing the allegedly defective item.

Except as expressly provided herein, B. Braun makes no representation or warranty of any kind, expressed or implied with respect to any products, parts or services provided by B. Braun including, but not limited to, the implied warranties of merchantability and fitness for a particular purpose. Products distributed, but not manufactured, by B. Braun are not warranted by B. Braun and Buyer must instead rely on the representations and warranties, if any, provided directly to Buyer by the manufacturer of such product. The sole and exclusive remedy for breach of any warranty is limited to the remedies provided in the paragraph above.

Warranties for infusion system devices are provided in a separate warranty document.

Miscellaneous:

1. Any required notices shall be given in writing, in the case of B. Braun, at the address set forth below, and in the case of Buyer, at the address designated on Buyer's purchase order or to such other address as either party may substitute by written notice to the other and shall be deemed given upon personal delivery, overnight delivery or three days following deposit in the mail.
2. Except as expressly provided herein, no changes or modifications to, or waiver of, any of these terms and conditions shall be valid or binding on either party unless in writing and signed by an authorized representative of each party. B. Braun's failure or delay to exercise or enforce any of its rights hereunder shall not constitute or be deemed to be a waiver of such rights or forfeiture of such rights, and B. Braun may, at its option, from time to time, exercise any of its rights or remedies.
3. These Terms bind Buyer and its successors and permitted assigns.
4. B. Braun will use its reasonable efforts to fill orders, but B. Braun shall not be liable for nonperformance or delays caused by a shortage of raw materials, manufacturing problems, delivery or labor problems, priorities, acts of regulatory agencies or judicial bodies, discontinuation of a product line, acts of God or third parties, infringement claims, or other causes beyond its reasonable control. Buyer agrees that in such events B. Braun may allocate products among all purchasers as it deems reasonable, without liability. B. Braun reserves the right from time to time to substitute a product with a product that has the same function as such product, or to delete a product.
5. The products are sold subject to Pennsylvania law. These terms and any dispute or claim relating to these terms or the sale of products ("Claim") shall be governed by and construed under Pennsylvania law, notwithstanding its law of conflicts of law. If any Claim cannot be settled amicably between the parties, such Claim shall be tried by a court and not a jury. Buyer expressly and unconditionally waives its rights to a jury trial in any such Claim.
6. B. Braun shall promptly deliver written notice or verbal, followed by written, notice of any recall of Product. Should the recall require Products be removed from the market, B. Braun shall, to the extent reasonably possible and at B. Braun's option, replace any such recalled Products as soon as practicable with comparable Products not subject to such recall or repair any such recalled Products and return them to Buyer.
7. Buyer may not change, adulterate, obscure, remove or deface trademarks, tradenames or labels appearing on any Product of B. Braun.
8. If the pricing offered by B. Braun to a Buyer constitutes a discount or other reduction in price under Section 1128(b)(3)(a) of the Social Security Act 42 U.S.C. 1320a-7b(b)(3)(a), and C.F.R. § 1001.952(h), Buyer shall disclose the discount or reduction in price to the fullest extent required under any state or federal program that provides cost or charge-based reimbursement to Buyers for products. This act requires, among other things, that Buyer fully and accurately report on any claim or request for payment it submits to Medicare and Medicaid the actual purchase price paid by Buyer for products, net of any discounts, rebates or allowances provided hereunder. Buyer may also be required, upon request, to provide documentation of the discount or other reduction in price to the Secretary of Health and Human Services.
9. In all cases, all intellectual property rights in and to, and all technology relating to, the Products supplied to Buyer, their design and all improvements thereto or thereof, whether or not such Product, design or improvement is made pursuant to Buyer's specifications or at Buyer's expense, shall be and remain the exclusive property of B. Braun.
10. Any knowledge or information that Buyer may disclose to B. Braun shall not be deemed to be confidential or proprietary information, and shall be acquired by B. Braun free from any restriction.
11. B. Braun shall not in any event be liable to buyer for any indirect, incidental, special, punitive or consequential damages (including any damage for lost profits), or otherwise arising out of or in connection with furnishing of products, parts or service hereunder, or the performance, use of, or inability to use any products, parts or service, or otherwise, whether based in contract, warranty, tort, including without limitation, negligence, or any other legal or equitable theory. B. Braun's total liability for any claim or action shall not exceed the purchase price of the products out of which such claim or action arose.
12. If any of the products are medical devices, Buyer acknowledges that it is familiar with the Safe Medical Devices Act of 1990 (the "Devices Act") and the reporting obligations imposed on device users thereunder. In this regard,

Buyer agrees to notify B. Braun within ten (10) days of the occurrence of any event identified in the Devices Act imposing a reporting obligation on Buyer and/or B. Braun (except for events representing an imminent hazard that require notification to the United States Food and Drug Administration (the "FDA") within seventy-two hours, in which case, such notice will be delivered to the other party immediately). Buyer shall maintain adequate tracking for the products to enable B. Braun to meet the FDA requirements applicable to the tracking of medical devices.

13. Buyer shall purchase the products for its own use only, and shall not resell the products to any other party. Buyer represents it has examined the products and that they are acceptable and clinically suitable for its intended purposes.

Shipping:

1. Freight charges will be prepaid when orders are shipped via a transportation mode and carrier selected by B. Braun. Unless otherwise stated in an agreement, shipment of infusion systems devices will be made F.O.B. Origin.
2. When expedited delivery, specialized service, or alternate transportation modes are requested, or if requests are inconsistent with efficient distribution practices, an additional charge to cover the premium expense will be added to the invoice. Inside deliveries are subject to additional charges based on current common carrier rates or hourly rates. Palletized deliveries are encouraged.
3. Products will be shipped on a scheduled order and delivery basis. Orders shipped outside Buyer's order and delivery schedule may be subject to a handling charge of \$75.00. B. Braun will provide proof of delivery upon request.

Damage or Loss in Transit: Identity of items and extent of damage or loss must be noted on Buyer's copy of delivery document by the agent of the transportation company. If damage is discovered after receipt of shipment, notify the transportation company immediately and request that inspection be made and an inspection report rendered. Buyer must report concealed shortages or damages within palletized shipments to B. Braun Customer Support within 3 business days of delivery or credit will not be allowed. In addition, Buyer must provide B. Braun with a copy of Buyer's claim request accompanied by a delivery receipt or an inspection report upon which the transportation company has properly noted damage or loss, and B. Braun will issue a credit for the loss or damage and file a claim with the carrier. If such information is not received within ten (10) days of delivery, no credit will be issued.

Send copy of carrier freight bill to Customer Support indicating item and quantity damaged or not received.

Count and inspect your freight before carrier departs. Damaged merchandise should not be accepted.

Please forward all information to Attn: Customer Support, B. Braun Medical Inc., 901 Marcon Blvd., Allentown, PA 18109. (800) 227-2862.

For Order Placement: B. Braun welcomes orders either by telephone, fax, mail or electronically. For telephone orders, please call (800) 227-2862. Faxed orders should be sent to: (610) 266-6122. For infusion devices, call (800) 627-7867 or fax (610) 266-2429. In Canada, please call (800) 624-2920 or fax (800) 624-2939. Mail orders should be directed to Attn: Customer Support, B. Braun Medical Inc., 901 Marcon Blvd, Allentown, PA 18109.
